Directions

Click here for a map & directions to the surgery center: <http://goo.gl/maps/phHSY>

From the 10 Freeway, exit at Robertson Blvd and proceed north. Take Robertson Blvd to Wilshire Blvd. At Wilshire Blvd, turn left and proceed to Wetherly Drive. At Wetherly Drive, turn right. The building will be on your left. Turn into the building parking lot.

From the 405 Freeway, exit at Wilshire Blvd and proceed East. Take Wilshire Blvd from Westwood into Beverly Hills. Proceed on Wilshire Blvd past Rodeo and Doheny Drives. Wetherly Drive is one block east of Doheny Drive. At Wetherly Drive, turn left. The building will be on your left. Turn into the building parking lot.

Arrival Time

The surgery center will call you the night before surgery to confirm the arrival time, which is **one hour** before the time of surgery. It is important to allow extra time for traffic delays.

Out of Town Patients

Los Angeles can be a very confusing place, so if you flew into L.A. for surgery, please drive to K and B Surgery Center before the day of surgery so you are familiar with where to park and where the Surgery Center is.

Medications

Medications will be available to pick up on the day of surgery at Lane Medical Pharmacy, which is located in the same building as K&B Surgical Center on the 1st floor. Please feel free to call Dr. Lewin's office if you would like to request a different pharmacy.

Private Recovery Rooms

K and B Surgical Center has ultra-modern recovery rooms equipped with comfortable, fully adjustable beds, flat screen televisions, internet access and seating for visiting family and friends.

Infection Control

K and B Surgical Center takes infection control to the next level, minimizing the risk of infection and surgical complication. Special attention has been given to the ultra-clean operating rooms, with the installation of individual, high efficiency HEPA filters to further prevent any bacterial contamination. With 30 air exchanges per hour, these filters far exceed the industry standard.
